

# **Partnership Agreement**

between **Hausakte24** and **Docufi3d**

## **Subject:**

Integration of compliant digital signature services into the Hausakte24 platform for real estate documentation, based on Cardano blockchain technology.

## **1. Purpose of the Partnership**

The parties agree to collaborate in order to simplify and digitize the process of property owners. Users of **Hausakte24** shall be enabled to create and send legally valid, digitally signed documents such as invoices, statements, and letters – entirely without media disruption.

## **2. Scope of Implementation**

- **Docufi3d** provides integrated signature technology within the Hausakte24 platform
- Signatures are legally binding via Swisscom Trust Services
- Users can initiate the signature process directly within Hausakte24
- **Each signature is additionally recorded on the Cardano blockchain**, ensuring transparency, immutability, and future-proof security

## **3. Strategic Vision**

This cooperation demonstrates how real-world business processes can benefit from blockchain-based trust infrastructure. By anchoring legally valid signatures on Cardano, the partnership combines Web2 usability with Web3 transparency – creating a scalable and sustainable solution.

## **4. Signatures**

This agreement is signed by using Docufi3d's legally binding eSignature service.
