Validation Policy: QES AES/QC AES TL based

Validate electronic signatures and indicates whether they are advanced electronic signatures (AES), AES supported by a qualified certificate (AES/QC) or a qualified electronic signature (QES). All certificates and their related chains supporting the signatures are validated against the EU Member State Trusted Lists and third country Trusted Lists with voluntary-based AdES recognition (this includes signer's certificate and certificates used to validate certificate validity status services - CRLs, OCSP, and time-stamps).
